# Sabrina Hunter

**s.hunter01.sh@gmail.com (707)230-7348**

I have been with the Redding School District for almost twelve years, but I am sad to say I need a change. I am looking to work for a place just like this! I worked in a Special Day Class for six years at Bonnyview Elementary School and as a counseling technician for Cypress Elementary School for almost another six. I love helping people, this includes my coworkers. My schooling for my Bachelor's in Social Work has really helped me in order to best help my clients. I will be doing my internship again for my masters degree next year and got certification to become a certified wellness coach ll. *I am very caring, dependable, and organized!* I have great patience, professional demeanor, and communication and computer systems skills. I love helping children learn, typing, reading, listening, studying, researching, writing, and helping people!

Recommendation for Sabrina Hunter

Poised, positive, and focused on supporting students with emotional and behavioral challenges to build success in a school setting, I recommend Sabrina Hunter for a position within your organization. Mrs. Hunter and I worked together on the Cypress Elementary School campus in the Redding Elementary School District during the 2024/2025-school year where I served the campus as a Master Teacher, in a classroom coaching role. Mrs. Hunter served the Cypress School campus as an instructional assistant in the counseling department. As enrollment and campus needs shifted, Mrs. Hunter did as well, working to support students in grades Kindergarten through fifth grade with behavior challenges and academic achievement goals. I also worked with Ms. Hunter as a principal on the Bonny View Elementary campus, where she served our students as an instructional assistant in our kindergarten through second grade Special Day Class.

As a classroom coach and principal, maintaining a positive and safe school climate is a top priority, and in these roles, I observed Mrs. Hunter possess the traits necessary to bridge individual student's needs with the school's policies and behavioral procedures. She speaks with students in a calm, caring tone, and keeps the focus on learning as she builds positive relationships that put students at ease in her presence. She is a cooperative staff member and welcomes opportunities to learn from colleagues and program directors with a growth mindset.

As a classroom coach and former elementary school principal, I recommend her to your team. It is a fortunate campus who has a team member such as Mrs. Hunter. Should you need further information please contact me.

Sincerely,

Jennifer Mosier

Retired School Principal/Master Teacher/Classroom Teacher
